PROFESSIONAL SUMMARY

Fourth-year B.Tech Computer Science student specializing in Artificial Intelligence and Machine Learning with foundational skills in **IT operations, product support, and troubleshooting techniques**. Experienced in effectively resolving client tickets and documenting processes, contributing to continuous improvement in service delivery. Developed an AI-powered application that achieved **90%+ job-resume matching accuracy**, demonstrating strong analytical and technical capabilities.

EDUCATIONS

Graphic Era Hill University | Dehradun, India Aug 2023 - Jul 2027
B.Tech in Computer Science & Engineering (AI & ML) CGPA : 7.25

WORK EXPERIENCE

AI & Data Science Intern | Internship Aug 2026 - Sep 2026
Data Alcott Remote

- Developed 5 **AI/NLP applications**, including an ATS Resume Reviewer, Internship Recommender, Project Topic Engine, and 2 Conversational Assistants. .
- Built **NLP & hybrid recommendation models** (TF-IDF, Cosine Similarity, SVD) using Scikit-learn, increasing profile-matching accuracy by 35%. .
- Designed **Flask REST APIs** and Chart.js web dashboards for real-time analytics, reducing onboarding and registration cycle time by **40%**.

Technologies / Skills Used : Python, NLP, Scikit-learn, TF-IDF, JavaScript, REST APIs

PROJECTS

AI Career & Research Assistant | GitHub Website Feb 2026 - Mar 2026
AI/ML Full-Stack Developer

- Built a **2-module AI platform** for career and research intelligence with ATS scoring, semantic job matching, skill-gap analysis, and learning recommendations.
- Developed **PDF/DOCX resume analysis** with **6+ career insights**, including skill extraction, job matching, ATS evaluation, gap analysis, and interview preparation.
- Engineered a **RAG-based research assistant** with multi-paper Q&A, vector search, and automated **8-section IEEE paper generation** from GitHub repositories.

Technologies / Tools Used : Python, NLP, Streamlit, React, BERT, RAG, Gemini 2.0/Pro, JavaScript, HTML/CSS

Fraud Detection Monitoring System | GitHub Dec 2025 - Jan 2026
Lead Developer

- Built a **fraud detection system** achieving **93% precision** and **88% recall** on imbalanced transaction data.
- Added **data drift detection** using **PSI and KS tests**, reducing false alerts by **18%**.
- Created an automated monitoring system to track **Precision, Recall, F1-score, and PR-AUC**, improving retraining response by **40%**.

Technologies / Tools Used : Python, Machine Learning, Scikit-learn, Pandas, NumPy, PSI, KS Test

Submi-Track – Smart Assignment & Doubt Community | GitHub Oct 2025 - Nov 2025
Lead Developer

- Built a **React-based web platform** for Admin, Teacher, and Student roles, used by **100+ users** for managing assignments and doubts.
- Developed **backend APIs** using **Node.js, Express.js, and MongoDB** with **JWT authentication** for secure user access.
- Added **PDF assignment uploads, deadline reminders, and a doubt discussion forum**, helping reduce missed submissions by **35%**.

Technologies / Tools Used : React.js, Node.js, MongoDB, React, JavaScript, Express.js, JWT, Multer, Node-Cron

SKILLS

Programming Languages :	Python, C, C++, Java, JavaScript, SQL
Databases :	MongoDB, Supabase, PostgreSQL
Frameworks & Libraries :	React, Node.js, Streamlit, HTML5, CSS3
Tools & Platforms :	Git, GitLab, VS Code
Soft Skills :	Leadership, Decision Making, Problem Solving, Teamwork

CERTIFICATIONS

- Completed the **Prompt Engineering** for Generative AI course.
- Earned a certificate in **Natural Language Processing with Python** from Coursera.
- Completed the **Machine Learning Foundations** course on Coursera.
- Participated in the **Generative AI Data Analytics Job Simulation** by Forage.

LANGUAGES

- English: Fluent (Read, Write, Speak)
- Hindi: Fluent (Read, Write, Speak)
